NETSCOUT™

Richard Kenedi

President, Service Assurance Business Unit

Richard Kenedi is President of NETSCOUT's Service Assurance business unit. In this role Richard is responsible for the performance and strategic direction of the company's Service Assurance product lines. Richard has over 30 years of industry experience. Richard came to NETSCOUT through the Danaher Communications acquisition where he most recently held the position of President Tektronix Communications. Prior roles within Tektronix Communications included Vice President, Products and Portfolio Management, Vice President and General Manager for the Test & Optimization and Core Test Businesses. Richard has also held senior roles in SOMA Networks and Nortel Networks.
